

SUMMER 2026 NEWSLETTER

A MESSAGE FROM THE YARD

There is nothing quite like a summer day on the Chesapeake Bay. The morning breeze fills the sails as sunlight dances across the water, ospreys circle overhead, and the quiet rhythm of the Bay reminds us why we love life on the water. Whether you are cruising out of Broad Creek, enjoying an afternoon under sail near Stingray Point, or dropping anchor for an evening sunset, summer on the Chesapeake is an experience unlike any other - and we are proud to help keep our customers ready for every moment of it.

As summer arrives, we want to thank all of our customers and friends for another strong season at Stingray Point Boat Works. We are proud to continue serving the Deltaville boating community with skilled craftsmanship, responsive service, and personal attention.

This season also brings exciting improvements and important updates that will help us continue delivering the high-quality work and customer experience you expect from our team.

**IMPORTANT RATE ADJUSTMENTS
BEGINNING JULY 1, 2026**

To continue attracting and retaining skilled marine technicians, maintaining high-quality equipment, and keeping pace with increasing operational costs throughout the marine industry, Stingray Point Boat Works will be implementing updated service rates effective July 1, 2026.

These adjustments allow us to:

- Maintain the quality and reliability of our workmanship
- Invest in our team and equipment
- Continue providing timely service and project support
- Support ongoing improvements throughout the yard

We remain committed to providing exceptional value, transparent communication, and dependable marine service for every customer and every project.

If you have any questions regarding upcoming work orders, estimates, or scheduling, please contact the office directly.

HURRICANE HAUL OUTS

If you plan to haul out your vessel in advance of a storm, please contact the boatyard as early as possible. Hurricane haul-outs are available on a **first-come, first-served basis**, and space is limited. As a storm approaches, demand for haul-out services increases significantly, and availability cannot be guaranteed. Now is the time to review your hurricane preparedness plan, verify your insurance requirements, and make arrangements well before a storm is forecast to impact the area. Early planning helps ensure the safety of your vessel and allows the boatyard to assist customers more effectively during severe weather events.

Keeping your boat ready for every Chesapeake Bay moment.

THANK YOU FOR YOUR CONTINUED SUPPORT

We sincerely appreciate the trust our customers place in Stingray Point Boat Works season after season. Whether you are here for routine maintenance, major refits, paint work, storage, or mechanical service, our team is grateful for the opportunity to help keep you safely on the water.

We wish everyone a safe, enjoyable, and memorable summer boating season.

Fair winds,

Jon & Rick Farinholt and the SPBW crew
